

# COVID-19 VACCINE RESEARCH STUDY

## VOLUNTEER & MAKE A DIFFERENCE

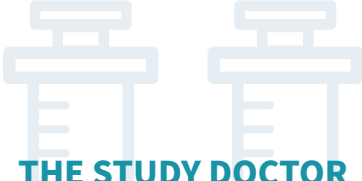

Every modern vaccine and medicine we have today was studied in hundreds to thousands of people before becoming available to the public. This study will enroll up to 30,000 people. By volunteering, you will represent people like you – in age, gender, race, ethnicity, and the communities where you live. Involving people from all backgrounds will improve the development of this vaccine for everyone.

Joining a clinical trial is an important and personal decision. We hope it is one you will consider.
