Greetings from your local Atoka (Tipton County) unite@night host,

We invite you to join us in supporting the 1<sup>st</sup> Atoka unite@night walk on Saturday, November 5th 2022! This is a fundraising event for the Bobby Jones Chiari & Syringomyelia Foundation (CSF). The unite@night will support CSF Chapters to provide education programs and increase awareness, while funding research projects that can potentially find answers to help those who are fighting these disorders. Bobby Jones, the famous golfer, had a personal medical journey with Syringomyelia. In 1948, he developed syringomyelia, a fluid-filled cavity in his spinal cord first causing pain, then paralysis. Bobby Jones never played golf again and was eventually restricted to a wheelchair until his death.

In December of 2021, our daughter, Oakley, (3) was diagnosed with Chiari Malformation & Syringomyelia. Prior to this, we went months with no answers for her symptoms and had several ER visits. When we finally had a diagnosis, we had few resources and limited medical knowledge about her condition. This disease was so rare, we had never heard of it. We felt so helpless but also determined to find answers for our daughter. It was through this organization and a support group that we found an amazing surgeon and a wealth of information. On March 9, 2021, our daughter had surgery for her Chiari and Syringomyelia complications. We are so grateful for a successful surgery, but we never want another family to face this journey alone. In 2019 Bobby Jones Family merged with the Chiari Foundation to help bring awareness. "With the same focus, determination and integrity as the great Bobby Jones, we (Bobby Jones CSF) and our family are on a mission to once again, win the 'Grand Slam.'"

We would love to continue to raise awareness and reach a goal of \$5,000 for the first year.

Bobby Jones CSF is a not-for-profit, 501(c)(3) organization whose mission is to advance knowledge through research and to educate the medical, allied sciences, and lay community about Chiari malformation, syringomyelia and related disorders, which currently affects over one million families. For more information on these disorders, please visit [www.bobbyjonescsf.org](http://www.bobbyjonescsf.org).

To make this walk a success, we are asking for your support. There are a few ways you can help:

**Donate Gift Basket/Gift Cards from your company**

**Donate Supplies or a gift card to purchase supplies and/or services**

(for food, beverages, entertainment) for the day of the walk.

**Participate as a vendor or host a game**

**Have your company or organization register as a team**
